

***A Message to Citizens  
of the City of St. Francis, WI  
from your Mayor***

**CoryAnn St. Marie-Carls**

**Signs and messages are now everywhere in our City showing unity & standing up for the voices of taxpayers**

**Who's fooling who?**

**What is going on with this petition against your Mayor?**

First may I say, I sincerely appreciate the concerns voiced to me and the outpouring from so many! I have always believed in your common sense and ability to see through the "smoke and mirrors" tactics to distract and "fool" you, the citizens of our great community.

With your support I continue to work with one foot firmly planted in its faith-based origin, another clearing way for a local government that puts the citizens first and that is not self-serving but that is "selfless" to personal agendas and special interests. Together we are have moved forward with many successes. Within the last 5 years we have increased our reporting, transparency, community events, promotions, City volunteer participation, as well as community pride with public improvements of our facilities and parks.

**In our recent conversations "you" the citizens have voiced your questions and concerns:**

- You said - Our City's progress has not been affected by this continuous mudslinging and we still continue to move forward above the "Status quo" with many accomplishments to show for it.
- You feel - Our City is on the right track, and this this petition started by an unknown young woman and boldly supported by Alderman Ken Tutaj is a "foolish" attempt to distract the citizens.
- You believe - I have moved forward to loyally serve only your needs amidst detractors with innuendos and accusations before; because voters made their decision and taxpayers stood up and re-elected me in April 2016.
- You said - Alderman Ken Tutaj has a personal agenda of private interest for his personal gain and has resorted to going door to door himself with an innuendo and accusation based recall petition of "smoke and mirrors".
- You say - Here we go again with more "Smoke and Mirrors" of hidden agendas, and election decisions are not being honored by Alderman Ken Tutaj.
- Citizens have asked, "What action has Alderman Ken Tutaj taken on behalf of us the citizens prior to now activating aggressively to try to provide himself an opportunity to run for Mayor"? Why not be upfront and wait for the general election in 2020?

**When first elected as your Mayor in 2012, I pledged to work for you and be your voice.**

*With you, the taxpayer's help I have stood strong to these distractors and the innuendos and accusations and continue to work to evolve the culture of our community's local government to be citizen first, listening to your needs, asking tough questions, and taking action on your behalf.*

**I wish you a wonderful Christmas Season and good health to you. Thank you again for your support and making this special season for myself and my family the brightest ever!**
