You Don't Mess with the Zohan Disco- and hummus-loving Zohan (Sandler) is the Israeli army's best weapon. He can single-handedly take out terrorists and swim like a dolphin, and still find time to charm the ladies. But this lethal weapon is tired of fighting Palestinian terrorists like the Phantom (John Turturro). He has bigger dreams: he wants to cut and style hair. Unfortunately, once Zohan arrives in New York City with a new look straight out of the 1980s and an assumed identity after faking his own death, his lack of experience gets him laughed out of salon after salon. Finally, Dalia (Emmanuelle Chriqui), a Palestinian salon owner, gives him a shot, and the older patrons love him. But just as Zohan is hitting his stride, Salim, a Palestinian New York City cabbie (Rob Schneider) recognizes him, and suddenly the Zohan's dream is in jeopardy. To confuse matters more, there is a Trump-like developer (Michael Buffer) who is trying to clear out the Manhattan neighborhood where Israelis and Palestinians peacefully coexist in order to build a mall. A bulked-up Sandler is amusing as Zohan, and this is Schneider's best performance in years. Despite the extreme stereotyping, there is an underlying message about the futility of war and fact that people really are, after all, just people. The film is peppered with brief appearances from a menagerie of celebrities, including Chris Rock, Dave Matthews, Charlotte Rae, Kevin James, John McEnroe, Mariah Carey, George Takei, and Bruce Vilanch. Lainie Kazan and Nick Swardson also star in this film as a mother and son who befriend the new immigrant. *Sony*

Rest Stop Don't Look Back Hillbillies in trucks attack attractive young city-slickers, once more, in this sequel to 2006's *Rest Stop*. A year ago, young lovers Nicole and Jess (Julie Mond and Joey Mendicino) ran away from home and have yet to return, prompting Jess's brother and his friends to set out on a sweeping search for the couple. What the friends don't bargain for is a run-in with a murderous madman. The crazed psycho, it seems, might well be responsible for the disappearances of Nicole and Jess and could potentially become the catalyst for their own undoing. This raw and uncut film is a follow-up to the shocking smash! Totally twisted extras included deleted scenes, alternate ending, mythology featurette, and commentary with writer/producer John Shibban & director Shawn Papazian. *Warner*

But, from deep within the psychopathic subterranean world created by *Otis* (Bostin Christopher), Riley turns the tables on her tormentor, manages to escape and to contact her parents. But her freedom is just the beginning of the gruesome, and oddly hilarious, downward spiral her family takes when they decide to get even with her abductor. It's a twisted ride that will leave audiences torn between laughing and covering their eyes. Pirates of the Caribbean The Curse of the Black Pearl is a swashbuckling high-seas tale directed by Gore Verbinski. When Captain Jack Sparrow (Johnny Depp), an eccentric rogue, arrives at Port Royal, he barely avoids going down with his ship. Soon enough, he's in the market for a new one, but not before he saves the life of Elizabeth Swann (Keira Knightley), the beautiful daughter of the governor (Jonathan Pryce). This act of bravery sets into motion a sweeping adventure involving Elizabeth's childhood friend, blacksmith Will Turner (Orlando Bloom); a mysterious medallion; and a legendary pirate ship, the *Black Pearl*. The *Pearl*'s mottled Captain Barbossa (Geoffrey Rush) wants Elizabeth's doubloon necklace, and when she's kidnapped by the ol' salty dog and his crew, Sparrow and young Will must rescue her and find out the truth behind the ship's curse. *Buena Vista / Disney*

Pirates of the Caribbean Dead Man's Chest The second part of a trilogy, *Pirates Of The Caribbean: Dead Man's Chest* is a fantastic tale of pirates, love, and the supernatural. Blacksmith Will Turner (Orlando Bloom) and his upper-class love Elizabeth Swann (Keira Knightley) are preparing to wed when they are confronted with a warrant for their arrests because they helped the notorious pirate Captain Jack Sparrow (Johnny Depp) escape the authorities. Their only choice for a pardon is to find Jack and return to Lord Cutler Beckett (Tom Hollander) with the flamboyant captain's compass. Will's attempt to track Jack down, however, becomes an adventure unto itself: Jack is being held captive on an island where the natives think he is a god. To make matters worse, the infamous Davy Jones (Bill Nighy) and his Flying Dutchman crew are after Jack, seeking his soul to repay a debt. With his beard of tentacles and a lobster claw for a hand, heartless Jones is no mere mortal. He and his men are slowly evolving, taking on the attributes of various sea creatures, and with the help of a giant sea monster, the Kraken, they rule the waters. Seeking respite from his fate with Davy Jones, Jack enlists the aid of Tia Dalma (Naomie Harris), a practitioner of the supernatural, in an effort to locate the *Dead Man's Chest* that supposedly contains Jones's still-beating heart. Whoever possesses the heart controls Jones, and thereby controls the seas. And so the adventure continues as Jack, Will, and the *Black Pearl* crew track down the Flying Dutchman in search of redemption. *Buena Vista / Disney*

Pirates of the Caribbean At World's End After the action of *Pirates Of The Caribbean: Dead Man's Chest*, anti-hero Jack Sparrow (Johnny Depp) is trapped in the netherworld of Davy Jones's locker. Barbossa (Geoffrey Rush) has returned from the dead to aid Will Turner (Orlando Bloom) and Elizabeth Swann (Keira Knightley) in their quest to rescue the beloved captain. They journey to Singapore to ask for help from notorious pirate Sao Feng (Chow Yun-Fat), and with this new alliance, they travel to the edge of the earth to find Jack. Then they will join forces with the world's most powerful pirates to unite against Lord Brackett (Tom Hollander) and the East India Company. *At World's End* is an exercise in excess, boasting a running time of nearly three hours and a labyrinthine map of double- and triple-crosses. Characters return from the dead and change allegiances with ease, thanks to the magic of Tia Dalma (Naomie Harris) and the pirate code of ethics—or lack thereof. Though the third film in the series is filled with action and special effects befitting any blockbuster, it's the performances that make the movie memorable. Depp has earned an Oscar nod for his role as Jack, but he's not the only one who shines. With Jack locked away, the film sits on the strong shoulders of Rush, as well as Stellan Skarsgard as Bootstrap Bill and the brilliant British actor Bill Nighy as Davy Jones. This 2 DVD limited edition set includes the film plus an in-depth, epic adventure in its own right with insights and revelations that will blow you away including on set with Depp & The Rock Legend, bloopers, deleted scenes, Tale of Many Jacks, anatomy of a scene, masters of design, world of Chow Yun-Fat, inside the Brethren Court, music of Hans Zimmer, and Hoist the Colors. *Buena Vista / Disney*

The Happening M. Night Shyamalan serves up over-the-top, apocalyptic strangeness. The film opens onto New York City's Central Park with a crowd of people enjoying an idyllic summer day. The care-free scene soon takes a terrifying turn, when out of nowhere, hordes of people begin to commit suicide en masse. People scramble to make sense of the pandemonium, and many believe it is a terrorist attack. It appears that some sort of deadly toxin is being released into the air. Cut to Elliot (Mark Wahlberg) a science teacher in Philadelphia. When he learns of the attack on New York, he meets up with his wife Alma (Zooey Deschanel), his friend Julian (John Leguizamo), and Julians's daughter, Jess (Ashlyn Sanchez). They make plans to get out of the city via train, but the train is evacuated in the middle of a small Pennsylvania town. When they learn that the mysterious toxin is spreading its way across the Northeast, they break up into groups, with Elliot, Alma, and Jess running through open farmland in search of safety. They are unsure of where to hide, or what exactly they are hiding from, until Elliot slowly forms a theory about the threat. He fights to keep Alma and Jess free from harm, and the film builds to a bizarre, unsettling climax, with Shyamalan's usual surprise ending. Shyamalan's premise of escaping an unknown, unexplainable attack is a timely one, and is quite chilling in concept. **Fox**

John Adams John Adams is a sprawling HBO miniseries event that depicts the extraordinary life and times of one of Americas least understood, and most underestimated, founding fathers: the second President of the United States, John Adams. Boston Legal Season 4 a wry courtroom television show that walks the line between drama and comedy, is the creation of perennial hit-maker David E. Kelly. The series revolves around the Boston litigation law firm of Crane, Poole, & Schmidt, and in particular two eccentric and flawed attorneys, Alan Shore and Denny Crane. Shore, an unscrupulous and wily ambulance chaser and womanizer (played with sly charm by James Spader), finds an uneasy alliance with Crane, a bombastic, self-aggrandizing, and occasionally batty elder lawyer (William Shatner in an Emmy-winning performance). Despite their ethical and emotional deficiencies, Shore and Crane usually find themselves fighting on the right side, as they take up cases that no one else is willing to touch. Candice Bergen also stars as Shirley Schmidt, a lawyer who joined the firm despite having some past history with both Crane and Shore. TV court veteran John Larroquette joins the cast in this exceptional fourth season.
