**Steven Universe: Complete Collection** Featuring EVERY episode of Steven Universe, Steven Universe Future, the Smash Hit TV Movie, Steven Universe The Movie Plus Hours of All-New Bonus Content! Steven Universe is set in the fictional town of Beach City, Delmarva, where the Crystal Gems live in an ancient beachside temple and protect humanity from monsters and other threats. The Gems are ageless alien warriors who project female humanoid forms from magical gemstones at the core of their being. The Crystal Gems comprise Garnet, Amethyst, Pearl and Steven—a young, half-human, half-Gem boy who inherited his gemstone from his mother, the Crystal Gems' former leader Rose Quartz. As Steven tries to understand his gradually expanding range of powers, he spends his days with his father Greg, his best friend Connie, his magical pet lion, other residents of Beach City, and the Gems. He explores the abilities inherited from his mother, which include fusion—the ability of Gems to merge their bodies and abilities to form new, more powerful personalities. The series's first season gradually reveals that the Crystal Gems are remnants of a great interstellar empire. During their missions they visit ruins that were once important to Gem culture but have been derelict for millennia. The Gems are cut off from the Gem homeworld, and Steven learns that many of the monsters and artifacts they encounter are Gems who were corrupted by a Gem weapon of mass destruction and can no longer maintain rational, humanoid form. By the end of the first season, Steven learns that, millennia ago, the Gem empire intended to sterilize the Earth to incubate new Gems, but Rose Quartz led her supporters, the Crystal Gems, in a violent and apparently successful rebellion against this genocidal plan. The discovery and release of Lapis Lazuli, a Gem trapped on Earth for millennia, puts the Crystal Gems at risk from the Gem empire once more, leading to the arrival of hostile envoys Peridot and Jasper. In the second season, Peridot allies with and eventually joins the Crystal Gems to prevent Earth's destruction by a Gem "geo-weapon" buried in the planet. During the third season, Lapis Lazuli decides to live on Earth with Peridot; Jasper is defeated and captured; and Steven learns that his mother assassinated one of the Gem empire's matriarchs, Pink Diamond. In the fourth season, as Steven wrestles with his conflicted feelings about his mother's actions, the Gem empire leaders Blue Diamond and Yellow Diamond begin to turn their full attention to Earth. In the fifth and final season, Steven learns that in fact his mother was Pink Diamond, who faked her death to assume the identity of Rose Quartz; he uses this revelation to persuade the other Diamonds to try to take responsibility for and fix the damage they have caused. This ultimate 15-Disc Collector's Edition Storybook features custom-made pieces of art on every page by Chromosphere.
